This game has been created and orchestrated with no real care at all.

The only enjoyment I've got from buying this is reading the positive reviews, these are hilarious, but only to someone who has been exposed to the game.

Save your money.. wtf is this??

how is in my library??

the worstest game ever

. Fun and hard. Bought this with a 90% coupon, was worth it with that. Without any sales, not worth it.. Dear Dev, You said this game is an open-source game. Why don't you post it in Github or IndieDB? Steam is really not designed for teaching others how to do it. But one thing I am really impressed is you didn't use any game engine (If I am correct) to create the game. It is pretty hard in my opinion to create a game without a game engine with one person.. kill me please. I'm going to go ahead and cautiously give this one a "recommend" - it has a lot of potential. If the developers keep up with the updates it's going to be a fantastic game. There's not a lot to do right now, but it kept me entertained for 5 hours - and that's worth \$13 to me. I'd like to see a map and a purpose for sleeping in your bed other than setting a spawn point, and the colors they chose for iron and stone are way too similar for my old eyes. If you like this sort of game, this one is worth a shot.. This is a nice enhanced variation of the old arcade game Qix. It's fun to play and well worth it's low price. Recommended!

. I've been following the development of Little Square Things for a long time; and it feels like a game from another era in the very best way. It takes me back to the past of PC puzzle-gaming in all the right ways too with plenty of personality, and the extra layers of polish and replay make this title well-worth a second look (or third, or fourth\u2026) Recommended for anyone, especially if "BoWEP" means anything to you.

NOPE NOPE NOPE!!!

JUST DONT BUY IT!!

Friend gifted me the game cause he doesnt know how money works!!

As i say in CAPS. This game is it not worth! No servers, no customization of your keybindings, no matter how high ur turn ur graphics still♥♥♥♥♥♥♥♥

This has been developed by 13year old guy. Okay GG MATE but learn to make a better game. Still loads of buggs and nothing gets fixed. Money ♥♥♥♥♥♥♥♥. Its not a bad game to kill a few hours with but wished I wated to have the next update before trying it for the first time.. Enjoying the game. Reminds me of some books I read.. Want to laugh? PLAY IT!. You can barely see your own, or anyone else's character (graphics) and the game is just outright laggy. My mouse can't keep up with the character's movement and to fix the graphics issue, I needed to select a different intel/graphics card. Please do something about this or I shall never see the light in this game again...
